ABOUT ME

Electronics and Communication Engineering (ECE) undergrad at **KL University (CGPA 8.88)** driven by curiosity and a passion for innovation, I'm a zealous learner with a quick adaptability, a hands-on mindset, and a focus on solving practical problems through efficient solutions

EDUCATION

- **KL university** 2021-2025
B.Tech(ECE),HYD,Telangana CGPA: 8.88

TECHNICAL SKILLS

Languages: C, C ++, Java, Verilog, SystemVerilog, Embedded C

Tools: Vivado, Arduino IDE, LT spice, JIRA

PROJECTS

•Two-wheeler Crash Detection system

Arduino, MPU6050, GSM Module

- Arduino, MPU6050, GSM Module
- Developed an electronic system that detects a crash of the two-wheeler and sends an SOS message to the emergency contacts that were pre loaded

•Binary Speaker Classification using Tensorflow

Python, TensorFlow

- Tools & technologies used: Python, TensorFlow
- Created and trained a CNN model that can recognize and classify two different users from a sample of audio clips

•Word recognition system using TensorFlow

Python, TensorFlow

- Tools & technologies used: Python, TensorFlow
- Implemented a CNN model that can recognize words from a sample of audio clips
- Various metrics like activation function, epochs count, etc., were analyzed to see their effect on performance

EXPERIENCE AND CERTIFICATION

•QA Engineer Intern at Siemens EDA

Capital software

- Responsible for developing test plans, testing, creating automated tests, finding, documenting and reporting issues in a fast paced Agile Environment
- Actively contributed to a software that is used by automotive and aerospace companies to design and build electrical and electronic systems

•VLSI-Design and Verification certification level-2

By Tessolve Semiconductors

- Received training in Verilog and gained hands-on experience by working on multiple designs.

POSITIONS OF RESPONSIBILITY

•Coding Mentor

Mentored juniors in basics of programming and DSA in my college's coding club for a semester

•Technical Event organizing

Organized a coding quiz event in college during a fest

ACHIEVEMENTS

- Co-authored a conference paper that was published in Springer Nature:

https://link.springer.com/chapter/10.1007/978-3-031-77075-3_9

- Successfully created and deployed automated tests for multiple features in the Capital Software at Siemens EDA
- First price in a chess tournament at college
