AkhilVutla

PROFILE SUMMARY

Full Stack Developer skilled in Java and the MERN stack, with expertise in frontend and backend development, API integration, and database management. Certified AWS Cloud Practitioner, RPA Professional, passionate about building scalable applications and innovative software solutions.

EDUCATION

- KL University, Hyderabad** 2023-Present
Bachelor of Technology Computer Science and Engineering
CGPA: 9.4
- Valley Oak Junior College**
Telangana Board of Intermediate Education
2021-2023
CGPA: 8.3
- Oasis School of Excellence**
Secondary school of Education
2010-2021
CGPA: 8.2

PERSONAL PROJECTS

Banking Management System (Jan 2025 – May 2025)

Developed a fully functional **Banking Management System (BMS)** with secure multi-role access for administrators, employees, and customers.

- Tools & Technologies Used:** Java, SQL, HTML, CSS, React JS
- Designed a **responsive user interface** with Bootstrap 5 for a smooth and consistent experience across all devices.
- Implemented a **three-tier role-based access system** to ensure secure and authorized transactions.

Real-Time Gender and Age Estimation using CNN (Aug 2025 – Nov 2025)

Developed a computer vision system capable of predicting gender and age from live video streams using deep learning.

- Tools & technologies used:** Python, OpenCV, TensorFlow/Keras, CNN.
- Implemented a custom Convolutional Neural Network trained on large-scale face datasets for accurate age and gender classification
- Built a web-based interface to display live predictions with bounding boxes and confidence scores
- Optimized the model for faster inference through preprocessing, image normalization, and model quantization techniques

Participated in the Automation & Generative AI 24-Hour Hackathon 2025, organized by the Department of CSE, KLH University (Aziznagar Campus) in collaboration with Automation Anywhere, FOSS Club, and Guild Club (Oct 2025).

TECHNICAL SKILLS AND INTERESTS

Certifications: Automation Anywhere Advanced RPA Professional (July 2025), AWS Cloud Practitioner, Cambridge University Lingua Skills Certification – B2 Level (174 CFR) (Dec 2024).

Languages: Java, C, HTML, CSS, JavaScript.

Frameworks/Libraries: React.js

Developer Tools: Git, GitHub

Databases: MySQL

Design & Creative Skills: Problem Solving, Backend Development, API Integration.

Areas of Interest: Data Science, Artificial Intelligence & Machine Learning.
